Pregnancy check done on 5/27/2020. Checked mainly to confirm AI breedings. Many of the cows marked Pasture Exposed were short bred at that time, so calving dates on those cows is estimated based on last years calving date. Those marked as Pasture exposed will be palpated pregnant before selling.

1712,1714,1811,1816, E31, F18 and F19 are available now. The calves were weaned off these on 6/19/20. The other cows will be available after their calves are weaned around the middle of August.
